Location	Accident number
West End Airport (MYGW), Grand Bahama, Bahamas	OCC-2024/0023
Occurrence Date & Time	Registration
12 th April 2024, 10:40 AM local (1440 UTC)	N60SU
Aircraft	Serial Number
Piper PA-28R-201	2844121
Flight Conducted Under	
Visual Flight Rules	

Information:

Narrative:

On 12th April, 2024 at approximately 10:40 am local (1440 UTC), a Piper PA-28R-201 with United States Registration N60SU was involved in an occurrence while landing at the West End Airport (MYGW), West End, Grand Bahama, Bahamas.

The flight departed from Boca Raton Airport (KBCT), Boca Raton, FL, USA at approximately 9:51 am (1351 UTC) on a Visual Flight Rules (VFR) flight plan with three (3) persons on board.

The pilot in command indicated that there was no indication of any aircraft system malfunction or issue observed during the previous flight or during the pre-flight action before the incident flight. The flight was described as uneventful up and until the point of landing on runway 30 at MYGW.

The pilot reported that while at an altitude of approximately 20 feet above runway 30, she observed that the aircraft was not responding to the rudder inputs being made to adjust the alignment of the aircraft with the runway.

Subsequently, the aircraft touchdown sideways onto the runway and as braking and directional control inputs

were made with brakes and rudder, again the pilot reported that the aircraft did not respond and it continued on its trajectory which led to a runway excursion taking place to the right of runway 30 and coming to rest in bushes on the side of the runway.

The aircraft received damages to its wings. There were no injuries reported in relation to the occurrence.
