Ref#: 0067

Mr. Delvin Major  
Chief Investigator  
Air Accidents Investigation Department  
2nd Floor Manx Corporate Center  
#45 West Bay Street  
P.O. Box: CB-11702  
Nassau, Bahamas

Dear Mr. Major:

Re: **AAIA Aviation Safety Recommendation Data Base  
Response SR18 – 028 & SR18 – 044**

The Airport Authority, Family Island Airports Department confirms receipt of your document, 'AAIA Aviation Safety Recommendation Database'.

We would like to respond to the above indicated items, as all other items have been accepted by The Aircraft Accident Investigation Authority of The Bahamas on June 15, 2020.

In relation to SR18-028, The Airport Authority ensures that it's tenants are abiding by the provisions and obligations set forth in its security related programs. The Security Tabletop exercise is conducted on a quarterly basis, it is documented and with all Stakeholders in attendance while going over the Security Program. This program is overseen by Superintendent Sean Forbes, Safety and Security.

Secondly, SR18-044 only the Bahamas Civil Aviation Authority (BCAA), can levy penalties or sanctions against an individual or facility. The Airport Authority was not granted this authorization.

Hope this meets your requirements.

Regards,

Mr. Niko Davis  
Senior Superintendent Operations  
Family Island Airports Department

CC: Mr. Milo Butler III
