**Ref: Safety Recommendation SI18-00029 and SI18-00041**

The Air Accident Investigation Department (AAID) is an independent government agency charged by Minister for Tourism and Aviation with investigating every civil aviation accident and incidents in the Bahamas. We determine the probable cause of the accidents and issue safety recommendations aimed at preventing future accidents.

On August 27, 2018, the AAID adopted its safety recommendation report. The details of a related accident investigation and the resulting safety recommendations may be found in the attached report.

Among the Safety Recommendations are two of critical importance issued to Pineapple Air Limited, which can be found in the attached report.

The AAID is vitally interested in this recommendation because it is designed to prevent accidents and save lives. We would appreciate a response from you within 90 days, detailing the actions you have taken or intend to take to implement them. When replying, please refer to the safety recommendations by number.

Regards

Delvin R. Major
